

GR Advantage card and credits

Offers our members and merchants an efficient and cost-free marketing solution. No charge for members who already have a membership with GR international. For a non-GR member, there is a \$25* fee charged to activate the card. *taxes not included.

1. The goal of the program is to create more referral between members and add accessibility of our merchants to the general public.
2. Offer our merchant members a free and easy-to-use loyalty program.

How to get it

As soon as you register with GR international, you will receive an email including the link for installation and download in your Apple or Android Wallet. This card allows you to obtain GR credits.

GR Credits are exchangeable for any purchase or invoice for all products and services offered by GR international.

How to earn credits

You can get GR Credits by referral, through promotions offered by GR International and other future programs.

- \$ 25 in GR Credit per confirmed referral who becomes an international GR member.
- \$ 5 in GR Credit is granted to you for each sale of the GR Advantage Card. Save a lot of money by using your GR Advantage Card as often as desired.

Other opportunities

You can buy GR Credits and apply them to the cards of your choice. For example, a member could offer their customer \$10 in GR Credits with any purchase and presenting their GR Advantage Card.

So, the merchant buys a GR Credit bank in advance. Then, he would contact monique@grinternational.ca to transfer the GR Credits to his customer's advantage card. There is no expiration date on your GR Credits.

For more details please refer to the GR international rules and procedures or contact the head office.
